Message From President and Hon. Secretary Desk

Dear Friends,

Season's Greetings,

The heatwave is on & on but no remedy by the nature in form of rain. We are tiered by shower of heat instead of rain. Let us pray to God to shower rain as soon as possible.

We have arranged 3 programmes. On 10th June, we have arranged CME for General Practitioners with collaboration of College of G. P., I.M.A., G.S.B.

The topics of symposium were on " Red Flag ". On four subject 1. Red flags for important diseases presenting with fever 2. Red flags in Acute and Chronic disease 3. Red flags in Psychiatric disorders. 4. Identifying the touch. The programme was grand success.

On 16th June, there was Entertainment programme by AMA Medico Listers' Club चलो एक बार फिर से With title आज रे परदेशी... It was grand success.

On 17th June, there was 116th " Annual Day " celebration programme. The Chief Guest of programme was Dr. Bipinbhai M. Patel & Guest of Honour was Dr. M. M. Prabhakar. We felicitated the members and family members for various achievements. The programme was

grand success.

Friends, the first Day of July every year celebrated benevolently as " Doctor Day ". This day is meant to celebrate the selflessness of the noblest profession on earth and to all doctors who through their dedication to service and charity have always put service before self and tried to alleviate the pain and suffering of all patients across the country.

Our salutation to all doctors who through their adoration, charity, sacrifices bravery and audacity have somehow or the other contributed to the upliftment of Indian society. We pay our obeisance to the noblest of them all - in memoriam, Dr. B. C. Roy.

Friends, Our next programme will be on 30th June by AMA Senior Citizen Club topic will be Diet in Health & Disease.

Coming up next on the anvil is high octane Annual Conference of Ahmedabad Medical Association " AMACON-2018 ", on 1st July, 2018 Sunday.

Our next programme in July will be on 15th July on various topics.

On 22nd July CME will be on PPS Zonal Education Seminar.

Details of entire programme is given in bulletin.

Dr. Jayesh P. Sachde

President

Ahmedabad Medical Association

Dr. Kiritkumar C. Gadhavi

Hon. Secretary

IMA COMPREHENSIVE NOTE ON AYUSHMAN BHARAT PROGRAMME OF THE GOVERNMENT

IMA WELCOMES THE AYUSHMAN BHARAT PROGRAM BUT HAS SOME RESERVATIONS:

- STRICT MONITORING IN IDENTIFYING THE BENEFICIARIES WITH HEAVY PENALTY FOR FAKE ENTRANTS
- BUDGET ALLOTMENT TO COVER THE PROJECTED 50 CRORE POPULATION DOES NOT MATCH THE MINIMUM EXPECTED 1.5 LAKH CRORE RUPEES.
- **INSURANCE AND TPAs:**
 - IMA DEMANDS EXCLUSION OF INSURANCE COMPANIES AND TPA'S FROM AYUSHMAN BHARAT AND GOVERNMENT SHOULD AVOID SUCH MIDDLE MEN AND TAKE THE SERVICES DIRECTLY FROM THE SERVICE PROVIDER WHICH WILL BE COST EFFECTIVE BY SAVING AROUND 32% AND ALSO EFFICIENT HEALTH CARE CAN BE DELIVERED. (Arogyashri axes private Insurance)
- **EMPANELMENT**
 - ALL REGISTERED HOSPITALS SHOULD BE ELIGIBLE FOR EMPANELMENT SO THAT THE PATIENTS CAN AVAIL SERVICES IN THEIR NEIGHBOURHOOD
 - INSISTING ON ENTRY LEVEL CERTIFICATION IS A BOTTLE NECK. NOT MORE THAN 1500 HOSPITALS WILL BECOME ELIGIBLE. OUT OF 1429 SHCO APPLIED ONLY 406 HAS BEEN CERTIFIED AS ON DATE (Ref NABH Web site)
 - THE CLAUSE OF QUALIFIED STAFF AS PER INC (Indian Nursing Council) STANDARDS AS ESSENTIAL CRITERIA IS NOT PRACTICABLE AS WE DON'T HAVE ENOUGH QUALIFIED STAFF IN THE COUNTRY TO CATER THE REQUIREMENT. (INDIA IS SHORT BY 1.94 MILLION NURSES AS PER INDIA SPEND ANALYSIS DATA FROM INC AND WHO) (s NCI Standards / CEA Standards Annexure 5 / India Spend analysis data from INC and WHO)
 - IMA, WITH MORE THAN 3 LAKH MEMBERS-THE MAJOR REPRESENTATIVE BODY OF THE SERVICE PROVIDERS, MUST BE INVOLVED IN ALL LEVELS INCLUDING EMPANELMENT, PACKAGE FIXATION, GRIEVANCE REDRESSAL COMMITTEES
- **PACKAGES:**
 - ANNOUNCED DRAFT PACKAGES ARE UNSCIENTIFIC, NON VIABLE AND WILL LEAD TO COMPROMISE ON PATIENT SAFETY.
 - HON'BLE MADRAS HIGH COURT IN ITS ORDER WRIT PETITION No.7154 OF 2017 HAS DIRECTED THAT WITHOUT FIXING THE ACTUAL OPTIMAL COST THE TARIFF CANNOT BE FIXED
 - THE PROCESS OF COSTING HAS TO BE TRANSPARENT AND IN PUBLIC DOMAIN.
 - IMA'S AVAILABLE SCIENTIFICALLY DERIVED PACKAGES INDICATE THAT THE RATES QUOTED CURRENTLY ARE FAR LESSER THAN BREAK EVEN POINTS
 - PERIODIC YEARLY REVISION SHOULD BE INBUILT IN THE SCHEME AS AGAINST ONCE IN 3 YEARS
 - IMA'S ALTERNATE SUGGESTION -- PACKAGE FOR HOSPITAL AND PROFESSIONAL SERVICES CAN BE DELINKED WITH DRUGS, CONSUMABLES, IMPLANTS WHICH SHOULD BE PAID AT ACTUALS WITHIN ADMISIBLE LIMITS.
 - OPD SERVICES INCLUDING ANCILLARY SERVICES LIKE LAB INVESTIGATIONS WILL FALL OUTSIDE THE PACKAGE.
- **SETTLEMENT:**
 - SETTLEMENT OF BILLS SHOULD BE PROMPT WITHOUT UNDUE DEDUCTION, AND DELAY
 - DELAY SHOULD BE COMPENSATED WITH INTEREST.
 - CLARITY IS NEEDED ON THE ESCROW ACCOUNT SUGGESTED
- **GRIEVANCE REDRESSAL FORUM:**
 - IT SHOULD BE DESIGNATED AS TRIBUNAL WITH IMA AS A REPRESENTATIVE.

Reconceive Ayushman Bharat INDIAN MEDICAL ASSOCIATION

The ambitious AYUSHMAN BHARAT Scheme of the Honourable Prime Minister Narendra Modi has brought Health as an important issue in an election year. IMA welcomes the proactive stand on Health. Considering the fact Health budget was sliced by one billion dollars in the first year of the Government the money that has been allotted for the scheme is roughly one sixth of what had been removed from a legitimate Health budget. The change in the direction of fund flow and priority is welcome. However, it is a matter of great concern that only a fraction of 1.5 lakh crores required has been allotted.

The money allotted for the National Health Protection Scheme would have better served the nation if every Government District Hospital had been strengthened with an infrastructure of Rs 2 crores each. The highly optic NHPS fails to create any new national asset. The same money invested in our public hospitals would have brought secondary and tertiary care closer to poor in our Government hospitals. In addition to non creation of new public sector hospitals the scheme will lose around Rs 400 corers to private health insurance companies to manage the scheme. The insurance driven healthcare is a failed experiment.

IMA is of the firm opinion that the way forward for the country is to invest in our Government hospitals for better health infrastructure and manpower. 14 % of the GDP of USA is expended on Health. Yet 20 % of the American population do not have any health coverage due to the highly wasteful insurance model. The current policy change in India will only end up strengthening the insurance business. Moreover, fragmented approach to healthcare is unfortunate.

IMA has suggested to the Union Government that NHPS should be modelled as Health care purchase directly from the provider hospitals removing the insurance companies and Third Party Administrators. These intermediaries siphon off 40 % of the budgeted money and are breeders of corruption and unethical practices. Such a

direct model without insurance companies and TPAs was envisaged by the High power expert group constituted to study Universal Health Coverage.

Apart from such conceptual deficits the operational flaws of the scheme will ensure it as a non starter. The rates quoted by the Government are abysmal and impracticable. Most of them do not cover even 30 % of the cost of the procedure. No hospital can work on these rates without seriously compromising patient safety. In the garb of cost cutting the Government is exposing the people to danger in the hospitals. Caesarean sections underwritten for Rs 9000/- cannot ensure safety of the mother and the child. Safe confinement will require quality drugs as well as services of an Anaesthetists and Paediatrician. The Government has ordered for costing of the procedures as an afterthought after announcing the rates, IMA demands that the costing undertaken be transparent and be in public domain.

IMA is willing to partner the Government in Wellness centres if the Government wishes to provide services under a medical doctor. Clinical services from clinicians will ensure patient care and safety. Non clinicians providing clinical care will actually be part of the problem rather than a solution. IMA is also concerned that the sub-centres which were created for public Health aims are being converted into dispensaries. In fact, a parallel system is being evolved.

Had the Government extended the Insurance Coverage to primary care, thousands of clinics and small hospitals situated in rural and semi urban area would have participated in the scheme. This would have made the scheme and the small hospitals viable and sustainable. IMA is concerned that the small and medium hospitals will be decimated with the current design of the scheme.

IMA demands review of the concept and operational aspects of AYUSHMAN BHARAT.

Dr. Ravi Wankhedkar
National President

Dr. R N Tandon
Honorary Secretary General

OBITUARY

We send our sympathy & condolence to the bereaved family.
May his/her soul rest in eternal peace.

VACCINATION FOR WOMEN & ADOLESCENTS

Definition of Vaccine : A preparation of killed micro organism, living attenuated organism or living fully virulent organism that is administered to produce or artificially increase immunity to a particular disease.

Vaccination means the act or practice of inoculation with Vaccine orally or parenterally to simulate the immune systems against a disease.

We are all very much aware of vaccination in children upto 5 years of age but after 10 years and in women there are so many important vaccines to be given, of which either we are ignorant or we ignore. So many serious diseases can be averted by these vaccines in this child bearing age and we can avert morbidity and mortality in Mother and Child.

HPV - Vaccine - Human Papilloma Virus Vaccine

HPV is the most common viral infection of Genital tract, which infects Men and Women world wide (70% women get HPV, infection in life time). Infection with Oncogenic HPV types has been identified as a necessary cause of variety of cancers.

- The largest burden of disease associated with HPV is Cervical Cancer.
- The only treatment of Cervical Cancer is Cervical Excision.
- Cervical Excision leads to higher risk for negative outcomes in pregnancy.
- **Cold Knife Conisation** : associated with increase risk of :
 - (1) Perinatal Mortality
 - (2) Extreme Preterm Delivery
 - (3) Low birth weight < 2000 g. baby.

- **Cervical treatment** : associated with increased risk of :
 - (1) Miscarriage in the second Trimester.
 - (2) Ectopic Pregnancy
 - (3) Pregnancy termination

Cervical Cancer Prevention

- Cervical Cancer Screening
- Vaccination

Limitations of Cervical Screening

- Screening does not address / prevent the underlying cause of disease : Oncogenic HPV infection.
- In countries with little or no screening, Vaccination could represent the only viable option for prevention of Cervical Cancer.

Mode of Action of Cervical Cancer Vaccine

Vaccination (Vaccine) induces higher antibody levels in the blood and site of infection. These antibodies neutralise the virus and prevent entry of virus into the cells.

Two HPV Vaccines all currently available

1. **Quadrivalent HPV Vaccine** with
 - HPV-16, HPV-18, HPV-6, HPV-11
 - adjuvant - AAHS → Amorphous Aluminium Hydroxyphosphate sulphate.
2. **Bivalent HPV Vaccine** with adjustment
 - HPV-16, HPV-18
 - ASO4 → Aluminium Salt + Immunostimulant

Clinical Indication

- For females 10 - 45 Years

**For girls → 10-14 Years****2 Doses** 0-6 months(2nd dose can be given between 5 & 13 months)

For female aged 15-45 years

3 doses 0-1-6 months.**CHICKEN - POX VACCINATION**

Chicken Pox is caused by Varicella Zoster Virus (VZV). Usually Chicken Pox Vaccination is given to a child after 1 year of age.

2nd dose is recommended after 3 months of 1st dose and if missed give dose any time before 14 years. If not given then after 15 years repeat 2 doses again.

Why Chicken Pox Vaccine Essential in Women ?**Chicken Pox and Pregnancy.**

- If Chicken Pox occurs in 1st & 2nd trimester of Pregnancy - it may increase the risk of Congenital Varicella Syndrome.
- If Chicken Pox infection during 3rd Trimester may lead to **Maternal Pneumonia**.
- **Perinatal Vancilla infection** - If the mother develops Chicken Pox from 5 days before to 2 days after delivery there is risk of Newborn getting Chicken Pox infection shortly after birth.

Congenital Varicella Syndrome

Varicella infection in first or early second trimester the fetus develops congenital varicella syndrome. Congenital anomalies can be expected in 12% of infected feluses.

Clinical Features

- (1) Skin lesions

- (2) Neurologic defeat or disease
- (3) Eye diseases
- (4) Limb hypoplasias
- (5) Intrauterine refardation
- (6) Muscle hypoplasia
- (7) Gastro intestinal abnormalities
- (8) Genitourinary Abnormalities
- (9) Affections of internal organs
- (10) Developmental Delay
- (11) Defects of Cardiovascular System.

Maternal Pneumonia → Complication is in 10-20% of cases and higher mortality and morbidity than in non pregnant adults. Above 40% may need mechanical Ventilation.

- Mortality in severe cases - 3-14%.

Prevention of Varicella Infection

The best way to protect against Chicken Pox is to get the

- **Chicken Pox Vaccine** - 1-3 months prior to pregnancy.
- Vaccination of close contacts is most effective way to protect a Pregnant Woman against Chicken Pox.
- As soon as pregnant woman delivers her baby - she should be vaccinated against Chicken Pox with 1st dose and 2nd dose - 6-8 weeks post-partum visit.

MMR (Measles Mumps Rubella) Vaccine for Women.

MMR Vaccination now given at 9 months, 15 months and 4 years of age. But if missed should be given to all Adolescents (Boys and Girls)

Impact of MMR on Pregnancy Outcomes

Measles - If Measles occur during Pregnancy it leads to increased rates of **Premature labor, Spontaneous abortion, low birth weight baby** or also birth defects.

Mumps - If develops in Women during first trimester of Pregnancy, leads to an increased risk for fetal death.

Rubella - develops in women during Pregnancy it may lead to **Congenital Rubella Syndrome in the Baby.**

Manifestation of Congenital Rubella Syndrome

- Hearing Impairment
- Heart Defect
- Microcephaly
- Cataracts
- Low Birth Wt (<2500g.)
- Mental Retardation.

Conclusion

- Vaccination for Women in today's practice is a missed opportunity.
- Vaccines play a very significant role in safe pregnancy and infant health.
- HPV, Varicella and MMR Infections in women of child bearing age can have negative outcomes on pregnancy.
- Vaccination against HPV, Varicella and MMR should be considered in unvaccinated women of child bearing age.
