Message From President & Hon. Secretary

Dear Members,

विद्यां ददाति विनयं विनयाद्व याति पात्रताम् । पात्रत्वात् धनमान्योति धनात् ध्रम ततः सुखम् ॥

"Knowledge gives humility, from humility, one attains character, from character, one acquires wealth, from wealth, good deeds follow and then happiness."

Last month we have celebrated Republic Day in presence of our esteemed Guest, Dr. J. A. Jayalal, Past President, IMA HQ. With him we had hoisted flag and he had delivered very good speech regarding stand of IMA HQ for Central Act for violence against doctors. He also had advised for unity and solidarity among doctors. This year the theme was "GoldenIndia: Heritage and Development."

We had an excellent scientific program on Neurology Update on 16-2-2025, with one lecture about Medico Legal subject. We had one Facebook live on World Cancer Day, 4-2-2025 by our cancer experts doctor friends. They have explained variable points related to cancer in simple language that can be understood by common people.

We had also arranged scientific program in the form of Grand Revision of different subjects like General Medicine, Obstetrics and Gynaecology, Paediatrics, General Surgery, for the students pursuing practical exams of Gujarat University. In each session about 400 – 500 students had attended these sessions. All the sessions were about case presentation and

viva which were conducted by faculties of each specialty.

In coming days we are coming with varieties of nonacademic program with IMA Gujarat, like badminton tournament, Doc studio: Musical Extravaganza and Skit competition for students of different medical colleges of whole Gujarat. We have also planned one diagnostic camp under Aao Gaon Chale project at Kharaghoda on 30-3-2025.

"Wisdom is knowing what to do next. Skill is knowing how to do. Virtue is doing it." - David Starr Jordan.

Friends, with your kind support and motivation we all want to do it, to execute it in better and better way. Thank you.

Jai AMA - Jai IMA

Dr. Dhiren Mehta President, AMA

Dr. Urvesh Shah Hon. Secretary, AMA

Report of Program Vegan Awareness on 17-02-2025

Vegan Awareness Event: A Resounding Success

The Ahmedabad Medical Association Ladies Club recently hosted a vegan awareness event, which drew a significant crowd of enthusiastic participants. The event, held on February 17th, 2025, at the Ahmedabad Medical Association House, aimed to promote a healthier, sustainable lifestyle through veganism.

Inspiring Discussions

The event featured prominent speakers, Nitin Vyas (World Vegan Vision), Dr. Khushbu Shah and Ms. Dhartiben Thakkar, who delved into the significance of veganism and its impact on overall well-being. The discussions focused on the importance of embracing a plant-based lifestyle, highlighting its benefits for both physical and mental health.

Vegan Food Competition

One of the highlights of the event was the vegan food competition, which saw participants showcasing their culinary skills by preparing innovative and healthy dishes. The competition was strictly vegan, with no dairy or animal products allowed. The event provided a unique platform for participants to experiment with new recipes and flavors.

Tasting and Refreshments

The event also featured a tasting session, where participants could sample the delicious vegan dishes prepared during the competition. Light refreshments were also provided, offering a range of vegan options for attendees to enjoy.

Attendance and Feedback

The event saw a significant turnout, with attendees praising the informative discussions, delicious food, and engaging atmosphere. Feedback was overwhelmingly positive, with many attendees expressing their intention to adopt a vegan lifestyle or incorporate more plant-based meals into their diet.

Conclusion

The vegan awareness event hosted by the Ahmedabad Medical Association Ladies Club was a resounding success, achieving its objective of promoting a healthier, sustainable lifestyle through veganism. The event provided a unique platform for attendees to learn

"Building Confidence among medical professionals: A medico legal perspective"

Dr. Rutul Patel

MS, MCh (Gold medalist), PGDMLPE Director and consultant cancer surgeon Anamay Cancer Hospital, Ahmedabad

Medico legal case means "any medical case with potential legal implication"!

Road traffic accidents Sexual assault

Burns Suspected criminal abortion

Poisoning

Unnatural death (Hanging, drowning, strangulation) are few of examples of primary medico legal cases.

Remember always, any patient knocking at your OPD door is potential litigant, and so every case is a potential medico legal case!

Different ways by which dissatisfied patient can harass doctor:

Bitter words

- Civil suit/criminal case
- Verbal violence
- Complaint to medical Council
- Physical violence
- Consumer forum

Police complaint

What **remedies** do doctor have against patient/relative?

Bitter words: listen and forget, ponder later. Improvise yourself if you find real substance.

Verbal violence: tighten your body language and tone, tell them every word you speak is being recorded! Remember, you have right to refuse elective patient.

Physical violence: Shout for help/ Dial 100/ Activate appropriate whatsapp groups And most important retaliate. (You are a human being before doctor!) Gujarat Medicare Service Persons and Medicare service institutions act, 2012 is already in force. Compel police to register case under it and fight till justice is served!

- Offence would be cognizable and Non bailable!
- Fine up to 50K and imprisonment up to 3 years.
- Compensation twice the market price.

Complaint to medical council: Discuss with your senior in field and respond appropriately to council. Council will take decision in 6 months and appeal can be done to NMC with in 60 days by either of party.

Disciplinary action range from reformation to suspension of lisence up to 3 years, but no compensation (monetary benefit) to patient.

Permanent suspension of licence is rarest of rare event.

Consumer forum: Inform immediately to PPS,IMA GSB or any personal professional indemnity scheme company with "all documents in stipulated time".

It can give only compensation to patient. No punishment can be given to doctor.

Civil suit/Criminal case: Option rarely chosen by patient.

Police complaint: Nightmare for most of us due to insufficient knowledge!

Each one of us must know important part of this landmark judgement given by supreme court of India.

Jacob Mathew Vs. State of Punjab, 2005(6) SCC 1.

Three layers of protection given to our fraternity to deal with frivolous FIR against RMP.

- A private complaint will not be considered unless the complainant presents prima facie evidence, supported by a credible opinion from another qualified doctor, in order to prove the claim of rashness or negligence against the accused doctor. - So no direct FIR
- Before taking action against a doctor accused of rashness or negligence, the investigating officer should obtain an independent and qualified medical opinion, ideally from a government doctor specialized in the medical field, who can provide an unbiased assessment using the Bolam test(to assess breach of duty) based on the findings of the investigation. - Only FIR
- A doctor accused of rashness or negligence should not be arrested only because of the allegations. Arrest should only be made if necessary for further investigation or for collection of evidence, or if there is a possibility that the doctor might evade prosecution.

Just a bit of this knowledge will infuse tremendous confidence among doctors. What are best ways to tackle MLC?

- Try to PREVENT!
- Engage relatives in discussion: Seek help of skilled negotiators.
- If it's only about a "justifiable" discount in massive bill for deceased patient : consider it positively.
- Keep your eyes and ear open while in OPD, Respect your "Gut Feeling". Identify Yellow and Red Flags – respond appropriately.
- Never Try to PUSH patient for surgery or intervention even if you think it is

in good faith of patient.

- Avoid getting involved in monetary settlements with patient/relatives in absence of arbitrators.
- If punitive action is taken by medical council (Appeal to NMC): take a break, explore books or new interests and "restart"!
- If punitive action is taken by consumer forum mostly it will be paid by company, Learn from experience and move on. PPS scheme by IMA,GSB is flagship indemnity scheme in this regard.
- If it's civil suit then appoint a good lawyer and resume your routine. It will take years or a decade for final verdict.
- If its Criminal case then take "best" medico legal lawyer: Who can try best to **decriminalise** your case! "It's very difficult to prove criminal negligence of doctor in court!" Highest punishment to RMP for medical negligence under BNS 106(1) is imprisonment of either description which may extend to two years and shall also be liable to fine.

While we doctors are very much afraid of medicolegal cases, remember what comes to our rescue is

right knowledge of law!

Guillaon Barre Syndrome (GBS)

Guillain-Barré Syndrome (GBS) is an acute, immune-mediated, generalized polyradiculoneuropathy often triggered by a bacterial or viral infection, vaccination, or surgery

GBS has been associated with viral epidemics or pandemics, including H1N1, swine flu A/New Jersey influenza strain, West Nile virus, or Zika, and with coronaviruses including severe acute respiratory coronavirus (SARS-CoV) and recent SARS-CoV-2 causing coronavirus disease 2019 (COVID-19) infection

Clinical features

- Antecedent infectious symptoms
- Presence of distal paraesthesias at or before the onset of weakness
- Symmetrical weakness
- Monophasic disease course with interval between onset and nadir of weakness of 12 hours to 28 days, followed by clinical plateau

Guillain-Barré syndrome

Weakness and areflexia in all four limbs.

- +/- cranial nerve involvement and respiratory depression.
- Miller Fisher syndrome Ophthalmoplegia, ataxia, areflexia.

Before diagnosis we need to exclude other causes first

Differential diagnoses of Guillain-Barré syndrome and Miller Fisher syndrome.

Guillain-Barré syndrome

- Transverse myelitis
- Ischaemic or mechanical spinal cord injury
- Peripheral neuropathies (for example, Lyme disease)
- Myasthenia gravis

Miller Fisher syndrome

- Myasthenia gravis
- Brainstem stroke or inflammation

Investigations

- Brain and spinal cord imaging to exclude a structural cause, followed by
- Lumbar puncture, which characteristically demonstrates raised cerebrospinal fluid protein in the absence of inflammatory cells.
- Nerve conduction studies help to confirm the diagnosis, but, like cerebrospinal fluid, are non-diagnostic in up to 50% of patients in the first week of disease.
- The presence of anti-ganglioside (IgG) antibodies supports diagnosis.

Key indicators for ICU admission in GBS:

Respiratory compromise:

- Difficulty breathing or shortness of breath
- Decreased vital capacity (below 20ml/kg)
- Use of accessory muscles to breathe
- Inability to cough effectively

Autonomic dysfunction:

- Fluctuating blood pressure
- Abnormal heart rate
- Excessive sweating or lack of sweating

Severe bulbar weakness:

- Difficulty swallowing
- Slurred speech

Rapid progression of symptoms:

Worsening muscle weakness within a short time frame

Treatment modalities available

- Intravenous immunoglobulins (IVIg)- 0.4g/kg daily for 5 days
- Plasma exchange (PE)-200-250ml/kg for 5 sessions.

Clinical monitoring during treatment

Regular assess

- Muscle strength
- Respiratory function
- Swallowing function

Autonomic assess

- Blood pressure
- Heart rate/rhythm
- Bladder and bowel function

Atypical clinical presentation

GBS can also present in an atypical manner. Weakness and sensory signs, though always bilateral, can be asymmetrical or predominantly proximal or distal, and can start in the legs, the arms or simultaneously in all limbs

CASE REPORT

Operated rare case of 19/F 7 month Primi Gravida With Malrotation of gut

- Refreral to us with bowel obstruction since 10 days.
- Intestinal obstruction in pregnancy is uncommon, but is associated with significant maternal and fetal mortality. The delay in diagnosis is due to nonspecific symptoms and a disinclination to carry out radiological investigations in pregnancy.
- We report a rare case of cecal volvulus due to malrotation of gut leading to intestinal obstruction in pregnancy.
- Had MRI which suggested of Malrotation of Gut & possibility of Cecal Volvulus.
- Found to have cecal volvulus with impending perforations.
- Did extended right hemicolectomy Handsewn side to side ileo transverse anastomosis.
- Widening of narrowed base of mesentery.
- Straightened DJ flexure.
- Both mother and fetus are doing good.
