## Message from President's Desk

Dear members,

With all humility I accept this new role bestowed on me by Ahmedabad medical fraternity as a president of AMA. When I am taking over, the responsibility on my shoulder, it is of century old tradition of Ahmedabad medical association. For so many years, our seniors have contributed a lot for benefit of society and fraternity. I assure all the members that, we will continue working for the benefits of society at large and members also.

This year we have decided that theme will be Healing hands Caring hearts. We all become doctor by reading books and attending clinics. This gives us power to heal the patients. As medical association and medical fraternity our heart also cares a lot. Our contribution during COVID pandemic proved that.

This year we have decided to pursue a mammoth target. We have declared this year a year of a cause. We have declared HEARTBEAT MOVEMENT. In collaboration with Indian Red Cross society we are going to train school students from 9th standard till 12th standard for CPR. This CPR training will be chest compression only Life support. We have target of 410 schools and approximately 1.7 lakh students. For the same we have started Training of the Trainer.

Another work planned is for our students. We are going to launch a dedicated faculty teaching program for both MBBS and PG students. We will provide help to our students to be better prepared for competitive exams.

In sync with the Government of India, we will work for TB free India 2025. We have planned various programs for the same and I seek support from the whole medical fraternity for the same. Come let's give our children TB free country.

Ahmedabad Medical Association is proud for its AAO GAON CHALON program. This program was dreamed by our visionary guide DrKetan Desai sir and like our past teams, we will continue making this program successful during this tenure also. We have already declared center wise team for the smooth functioning of this program.

We will be actively pursuing the organ donation awareness program throughout the year. Recently we have organized a huge program in presence of Hon'ble Chief Minister Mr. Bhupendra Patel. We also had a huge program with CA association of Ahmedabad. We have planned such awareness programs with every corner of the city.

We have planned lots of social activities like old age home programs, senior citizen programs, blood donation camps, mental health programs, girl child empowerment programs, women empowerment programs and so on. We will increase our social initiatives so that medical fraternity can remain in touch with people with special needs and also fulfill its duties of social cause.

We have planned a unique CME programs with various Superspeciality who will guide us as Coarse Coordinator/Director. There are more than 20 such CME planned with them in next few months. These are extensive, unique learning module for all of us. It will cover every range of subjects, updates and various guidelines. So I request all of you to join these programs in full force.

When you will get this bulletin, our fraternity would have enjoyed a beautiful mega and unforgettable Garba night at Rajpath Club. We have planned a unique Sports Olympics. The details will be published in subsequent bulletins. I assure you this year cultural and sports events will be unforgettable and with a theme of motivating medical fraternity to take part in full force in such activities.

As you all know Ahmedabad Medical Association publishes a bulletin every month with various things in it. We are also going to increase various learning articles in it written by diverse population. It will be medical, financial, social and many more.

Last but not the least, I wish to say that this year we will participate in every public healthcare initiative of the city. As you would have seen that we released Garba guidelines for the city. Similarly in every public healthcare like prevention of disease, vaccination awareness, organ donation awareness, girl child safety, nutrition guidelines and so on so forth.

Ahmedabad Medical Association is a century old largest and oldest medical association of the world. We know our responsibility and we assure that we will do everything to fulfill that. We assure every member that when you talk of Ahmedabad City you will feel proud that you are part of association which keeps public healthcare first. We assure government of Gujarat and also City Corporation that in every endeavor of theirs, we will stand together to protect city's health.

**JAY IMA,      JAY AMA**

**Dr. Tushar Patel**

**President  
Ahmedabad Medical Association**

## Message from Hon. Secretary's Desk

Dear members

At the very outset, I am thankful to all for selecting me for the post of Hon. Secretary of prestigious Ahmedabad Medical Association. I know the privileges & responsibilities come together. At present, the responsibilities are at the pick when our healthcare system is passing through to many challenges. But, I am blessed to have great mentors of mine who always guide & support me; that will make many tasks to be done very swiftly.

Our President, Dr Tushar Patel, we all know him – a very resourceful & dynamic; who already have started organizing series of events with diverse subjects & area. The energetic & enthusiastic team of Managing committee already has taken up all the tasks up to the level of successful implementation & accomplishment. The tenure started with few couples of events for senior citizens. Apart from those, many scientific, social & cultural events have also been arranged. Hope all were truly nourishing the needs. More importantly, the movement being initiated to train school children of standard 9 to 12 for “Compress Only Life Support – COLS” has opened a new direction of services of the Noble association like AMA can offer. Some wise person has wisely quoted,

**“Where there is a WILL, there is a way”**

When we WILL to do good for the society ... then it comes to next quote,

**“Good, better, best. Never let it rest.**

**Till your good is better and your better is best”**

We are now on the way of unstoppable journey; the way which will further glorify our profession & will shine its holiness.

A P J Abdul Kalam has quoted **“Excellence is a continuous process and not an accident”** further to add over it, **“Excellence is doing ordinary things extraordinarily well”**; hence, we believe in achieving excellence gradually as a result of always striving to do better. With this school of thoughts, our motto for this year is **“Healing Hands, Caring Hearts”**.

Especially on the auspicious festival of Diwali, I wish, “May the supreme light illumine our minds, enlighten our hearts and strengthen the human bonds”

**Wishing you a very Happy Diwali !!**

**Jai AMA**

**Jai IMA**

**Dr. Urvesh Shah**

ડૉ. તુષાર પટેલની પ્રમુખ તરીકે વરણી કરાઈ  
અમદાવાદ મેડિકલ એસો.ના  
નવા 24 હોદ્દાદારે શપથ લીધા  
વિદ્યાર્થીઓને CPRની ટ્રેનિંગ આપીશું: પ્રમુખ

ભારતર ન્યૂઝ | અમદાવાદ

અમદાવાદ મેડિકલ એસોસિએશન (એએમએ) દ્વારા વર્ષ 2023-24ના નવા હોદ્દાદારોની વરણી કરાઈ હતી. આ નવા હોદ્દાદારોએ 24 સપ્ટેમ્બરે આશ્રમ રોડ પર એએમએ હાઉસ ખાતે મુખ્યમંત્રી ભૂપેન્દ્ર પટેલની હાજરીમાં શપથ લીધા હતા. આ પ્રસંગે કરાવેલી કલબના પ્રમુખ દુર્ગેશ ભવા અતિથિ વિશેષ તરીકે ઉપસ્થિત રહ્યા હતા.

એએમએના હોદ્દાદારોની નવી ટીમમાં પ્રેસિડન્ટ પદે ડૉ. તુષાર પટેલ, વાઈસ પ્રેસિડન્ટ તરીકે ડૉ. મુકેશ મહેશ્વરી અને ડૉ. રમેશ પટેલ, માનદમંત્રી ડૉ. કલિતાબેન દવે, જોઈન્ટ સેક્રેટરી ડૉ. રાજેશ દેસાઈ, કાર્ડિયાન્સ સેક્રેટરી ડૉ.

રોહન કિશિન, લાઈબ્રેરી સેક્રેટરી પદે ડૉ. ઋત્વિજ પરીખ સહિત કમિટીના 24 સભ્યોએ વર્ષ 2023-24ના હોદ્દાદાર તરીકે શપથ સહાય કર્યા હતા. આ પ્રસંગે ડૉ. તુષાર પટેલે સમાજના સ્વાસ્થ્ય અને કલ્યાણ માટે કામ કરવાની જાહેરાત કરતા જણાવ્યું હતું કે, કાર્ડિયાક એરેસ્ટથી થતાં મૃત્યુને અટકાવવા માટે એએમએ દ્વારા અમદાવાદની સ્કુલના 1.70 લાખ વિદ્યાર્થીઓને રેડક્રોસના સહયોગથી સીપીઆરની તાલીમ અપાશે તેમ જ વર્ષ 2025 સુધીમાં વડપ્રધાન દ્વારા જાહેર કરાશેલા ટીબી નાબૂદી અભિયાન કાર્યક્રમમાં કમગીરી કરવાની સાથે 'આંખો ચાંચ ચલે' પ્રોજેક્ટ અંતર્ગત એએમએ દ્વારા યજ્ઞો ગામોને દાતક લેવામાં આવશે.

અગા લાગે ત્યારે બચાવ કામગીરી કરી શકાય

## અમદાવાદ મેડિકલ એસોસિએશનના હોદ્દાદારોનો સ્થાપન સમારોહ

અમદાવાદ મેડિકલ એસોસિએશનના નવા હોદ્દાદારોની 2023-24ના વર્ષ માટે વરણી કલબમાં ભાગ લીધો હતો. મુખ્યમંત્રી ભૂપેન્દ્ર પટેલે સભ્યોને શપથ લેવાની હાજરીમાં ટીબી નાબૂદી અભિયાન કાર્યક્રમમાં કમગીરી કરવાની સાથે 'આંખો ચાંચ ચલે' પ્રોજેક્ટ અંતર્ગત એએમએ દ્વારા યજ્ઞો ગામોને દાતક લેવામાં આવશે.

City | Ahmedabad Mirror

Renowned pulmonologist  
Dr Tushar Patel is AMA prez

Dr Patel, who was part of the Covid Task Force, urges citizens to take influenza vaccine to ward off respiratory problems during winter months

Ahmedabad Mirror Bureau

TWEETS @ahmedabadmirror

Dr Tushar Patel, a pulmonologist and a critical care specialist, has been elected as the president of the Ahmedabad Medical Association (AMA) for 2023-2024.

Chief Minister Bhupendra Patel was present as the Chief Guest during the installation ceremony of Dr Patel on Sunday.

Congratulating Dr Patel and his team of AMA office-bearers, the CM highlighted that in the past there were only 1,375 seats available in the medical discipline in Gujarat. However, today, the number has significantly increased to 7,050 seats.

In a one-on-one interview with Ahmedabad Mirror, Dr Patel shared his vision about the goals he wants to accomplish during his tenure as the AMA President.

Considering the rise in the sudden deaths of young people, without any heart issues, due to cardiac arrest post Covid, Dr Patel wants to run a CPR (Cardio-Pulmonary Resuscitation) training for approximately 1.7 lakh students from class 8 to class 12 in 410 schools of Ahmedabad.

Under this community programme called 'Heartbeat Movement' project, which he would be doing with the Red Cross Society,

CM Bhupendra Patel was present as Chief Guest during the ceremony

he wants youngsters to understand the importance of CPR and how the skill can save lives in the time of need. Dr Patel also wants to adopt and help the tuberculosis (TB) patients in the city.

"The central government is already running Pradhan Mantri TB Mukti Bharat Abhiyan." Under this programme, 5,000 out of 9,000 registered TB patients in Ahmedabad are being treated. I want to reach out to the remaining 4,000 patients and help them to TB free via CSR funds of corporate entities," Dr Patel said.

He said settling medical insurance claims needs to be hassle free

for both patients and even hospitals. "I want to take up this issue with the insurance companies, so that both the parties get maximum benefit at the time of claim," he said.

He further said, "Getting administered with influenza vaccination before winter can save citizens from respiratory illnesses including Swine Flu among others. We will run programmes for its awareness."

Talking about affordable health service in rural areas of Gujarat, Dr Patel said 'Aao Gaon Chale' programme will be launched under which doctors will provide affordable health services at the village level.

## AMA trains over 200 medical students in CPR

Parth.Shastri  
@timesgroup.com

**Ahmedabad:** On Saturday, 200-odd medical students from various medical colleges in the city participated in a training for the cardiopulmonary resuscitation (CPR) on the Ahmedabad Medical Association (AMA) premises on Ashram Road.

The medical students will work as trainers for the general public to perform CPR in case of cardiac emergency. The initiative by the AMA is aimed at reducing mortality due to heart failure. Dr Tushar Patel, the president of AMA, said that CPR can surely give some time to the person before the medical help arrives.

"The idea is to force the heart to start pumping again. We have already urged the citizens to know their health status before participating in Navratri this year in light of the rise in mortality," he said.

Dr. Urvesh Shah, the secretary of AMA, said that the training comprises hands-only CPR at the moment. "The training is part of the long-term plan of teaching all the students of Class 9 to 12 in Ah-

medabad school how to perform CPR if someone collapses in their vicinity. According to our estimate, we will cover about 1,000 medical students and practitioners and over 1.5 lakh students in the next few months," he said.

It is a joint initiative of AMA with Indian Medical Association and critical care society of the city. The experts said that the procedure keeps the blood moving through the body and improves a person's chances of survival after the heart stops beating.

## 'Check BP, heart condition before revelry'

The Ahmedabad Medical Association (AMA) on Saturday released the guidelines for garba players and garba event organizers in light of the recent spike in Covid-19 related cases. The AMA officials said that the revellers should follow their blood pressure and the heart condition if they intend to spend long hours on garba grounds. Dr Tushar Patel, a city-based pulmonologist and president of AMA, told media that if there are underlying health conditions such as hypertension, diabetes and history of heart ailments, the revellers must be cautious and should consult their doctors. The doctors said that studies do not support the claims of Covid vaccine impact causing heart ailments. The panelists included Dr Mukesh Maheshwari, Dr Yogesh Gupta and Dr Urvesh Shah. **TNN**

## YOGA SHIBIR

**Late Dr. C. C. Raval - Divya Jivan Sangh  
For Doctors & their Family Members**

**Date** : 01-12-2023 to 10-12-2023

**Time** : 07:00 a.m. to 08:00 a.m.

**Venue** : AMA Premises

Yoga is a great way to work on your flexibility and strength. Just about everyone can do it.

**ADVANTAGES** : Yoga's incorporation of meditation and breathing can help improve a person's mental well-being. Regular Yoga practice creates Mental clarity and calmness, increases body awareness, relieves chronic stress, relaxes the mind centers and sharpens attention. It also helps to build up immunity and improves respiration and lung capacity. So in current Corona period Yoga is the best weapon to fight against Corona and useful for prevention.

**10 Benefits of Yoga** : • Improve flexibility • Improve strength and posture • Stretches & Tones your muscles • Better all round fitness • Maintain Weight • Increase your energy • Reduce stress • Breathe better • Be happier • Become more mindful i.e. alert

Registration fee **Rs. 50/-** per person

This Shibir will be conducted by

**Dr. Pushpa P. Multani** (Qualified Yoga Teacher)

**Dr. Tushar Patel**

President, AMA

**Dr. Urvesh Shah**

Hon. Secretary, AMA

**AMA & AFPA - "DOCTOR ON CALL " in Diwali**

Dear Friends,

During Diwali festival many of our friends go out of station on vacation. So many of people face problems in their needs during these days. So to avoid such inconvenience to society we conduct project of Doctors on Call since 10 years in association with Ahmedabad Family Physicians Association and this will be 11<sup>th</sup> year. Though because of Corona many of doctors may not go out but we continue our activity this year also.

We are planning a list of Doctors available during these festival days of Diwali in Ahmedabad. If you are interested in rendering your services during Diwali kindly send your Contact - Speciality - Area - through email to AMA-amagsbima@yahoo.co.in

You are not suppose to sit in your clinic round the clock - you will only be called in case of any emergency.

We are preparing a master list -Area wise and Speciality wise. The project will work like this :-

Patient

Call the Area Coordinator

As per need Call transfered to /Patient guided to available Doctor/ Hospital

Telephonic advise is totally free to patient

In Clinic /Hospital charges as per routine can be charged

We will publish the Help Line number which will be operational from 11/11/2023 to 15/11/2023

Those Doctors who wants to give their services are requested to contact Office of AMA.

**:: Co-Ordinators ::**

**Dr. Ramesh I. Patel**

**Dr. Rajesh Desai**

**Dr. Kamlesh Naik**

**Dr. Tushar Patel**  
President (AMA)

**Dr. Arvind Panchal**  
President (AFPA)

**Dr. Urvesh Shah**  
Hon. Secretary (AMA)

**Dr. Shailesh Raval**  
Hon. Secretary (AFPA)

## Report of Installation Ceremony dated 24-09-23

Installation Ceremony for Dr Tushar B. Patel as President of Ahmedabad Medical Association & for the team of Office Bearers and Managing Committee members for the year 2023-24 was held on 24th September 2023 at R.M.Fozdar Hall, AMA House, Ashram Road in the gracious presence of Shri Bhupendrabhai Patel Hon. Chief Minister of Gujarat as Chief Guest, Shri Durgesh Buch (C.A) President Karnavati Club, Past President of Gujarat Chamber of Commerce and Industry (GCCI) as Guest of Honour & Dr. Dhanesh A Patel Past President, IMA Gujarat as Installation Officer. The ceremony was graced by the august presence of Dr Anilkumar Nayak - Hon. Secretary General IMA HQ, Dr Mahavirsinh Jadeja – President IMA GSB and Dr Mehul Shah – Hon. Secretary IMA GSB.

The programme was started with IMA prayer & IMA flag salutation by Dr Gargi Patel. After opening remarks by Hon secretary Dr. Gargi Patel, the outgoing president Dr. Jitendra Shah welcomed all with beautiful welcome speech. The felicitation of all the invited guests & installation officer was done with nice mementoes. In presence of large crowd in the hall, Installation officer Dr Dhanesh Patel, installed all the new managing committee members & office bearers. The new President Dr. Tushar Patel then installed by Hon'ble Chief Minister Shree Bhupendrabhai Patel followed by ceremony of exchange of presidential crest & chairs from outgoing President, Dr. Jitendra Shah to newly installed President Dr. Tushar Patel. The oath was pledged by entire new team AMA as recited by installation officer Dr. Dhanesh Patel. Afterwards in his speech, Dr. Dhanesh Patel the installation officer congratulated the outgoing team for their good contributions & gave best wishes to the new team. The new President Dr. Tushar Patel accepted the responsibilities in his speech & he promised the

crowd to give his full devotion to the association acknowledging every senior & eminent persons present over there. The Guest of Honour Shree Durgesh Buch, praise the work of doctors especially during phase of Covid 19 pandemic. He congratulated President Dr. Tushar Patel & his entire team. The chief guest Hon'ble Chief Minister Shree Bhupendrabhai Patel gave the blessings to newly installed team. The entire programme was nicely managed on stage by Masters of ceremony Dr. Nirali Patel & Dr Ashish Bhojak. Finally the programme ended with vote of thanks by Dr. Urvesh Shah.

### **Report of National Voluntary Blood Donation Day 01-10-23**

Ahmedabad Medical Association & Indian Redcross Society have celebrated 'National Voluntary Blood Donation Day' by organizing a mega blood donation camp to share the need and importance of the blood in the life of an individual. The blood donation camp was organized on 1st October, 2023 at Redcross Blood Bank, Paldi, Ahmedabad. 137 units of blood was received in this camp. The camp was excellently co-ordinated by Dr Vishvas Amin Managing Committee member of AMA. Felicitation of 3rd Female Centurion blood donor of India Mrs. Chetanaben Parikh, Felicitation of 1st Centurion blood donor couple of India Mrs. Chetanaben Parikh and Dr Vinit Parikh, Felicitation of 125th centurion blood donor of Ahmedabad Redcross centurion blood donor club Mr. Ketanbhai Parikh was done in esteemed presence of Shree Mukeshbhai Patel - Chairman Emeritus Ahmedabad Redcross Society, Shree Harshad Shah – Chairman Ahmedabad Redcross Society, Dr Vishwas Amin - Secretary Ahmedabad Redcross Society, Shruti Chudgar - Vice Chairperson Ahmedabad Redcross Society & Shree Amit Doshi – Treasurer Ahmedabad Redcross Society.

## **Report of Senior Citizen Club programme (Webcasting of movie – 102 Not Out) dated 01/10/2023**

## Reports of series of programmes for Senior Citizens of the city

Ahmedabad Medical Association has organized series of programs for Senior Citizens of the city. Following activities were carried out at different places as a part of this gratitude program from 2nd to 7th Oct, 2023.

- Lectures on Geriatric Care by the expert faculties
- Role of adult vaccination in prevention
- Health checkup

The detail of this series of programmes for senior citizens is as follow;

2nd & 3rd Oct at Hiramani Old Age Home with KD Hospital, Co-ordinator Dr Vishwas Amin, No. of beneficiaries : 65

3rd Oct at Redcross Society, Vadaj, Co-ordinators Dr Bhadresh Shah & Dr Hetal Pandya, No. of beneficiaries : 70

4th Oct at R.J. Trivedi Swarnmandir Trust with CIMS hospital, Co-ordinators Dr R. I. Patel & Dr Mahesh Jivrani, No. of beneficiaries: 65

7th Oct at Balkrishna Haveli with Maninagar Medical Association, Co-ordinators Dr Mahesh Patel & Dr A. K. Maheshwari, No. of beneficiaries : 60

We are thankful to Shri Narharibhai Amin & Shri Ajaybhai Patel for giving us the opportunities of social services.

## Report of 'Taal se Taal Mila' – an audiovisual programme dated 07-10-23

A unique audiovisual programme 'Taal se Taal Mila' of the songs penned by Great lyricist ANAND BAXI was organized by Senior Citizen Club of Ahmedabad Medical Association at R.M.Fozdar hall, AMA house on 7th Oct, 2023. Anchoring was done by Dr G.G. Oza and Review & remark were done by Dr Ashok Patel. The programme was beautifully presented by Dr Gurudatt Thakkar. The event was thoroughly enjoyed by the audience.

## **Report of Press Conference to release guidelines for Garba dated 07-10-23**

The incidences of sudden cardiac arrest and sudden death in young individuals while performing exercises and playing sports are reportedly increasing nowadays. The biggest dance festival Navratri is around the corner. Therefore, a Press Conference was called by Ahmedabad Medical Association for releasing guidelines for Navaratri festival on 7th October, 2023 at AMA House. All the leading media personnel were invited to attend the press conference and to spread the awareness. The guidelines for garba players and garba event organizers prepared by the team of experts were shared among all. The panelists included were Dr Tushar Patel, Dr Mukesh Maheshwari, Dr Yogesh Gupta and Dr Urvesh Shah.

## **Report of Mental wellbeing program in Sabarmati Jail dated 08-10-23**

On the occasion of World Mental Health Day, Ahmedabad Medical Association and Sabarmati Central Jail jointly organized an interesting and interactive session for the prisoners. A team of doctors consisting of psychiatrists namely Dr Himanshu Desai, Dr Suhas Doshi, Dr Khyati Metaliya performed various plays and delivered a talk on "તમારા મનને ખુશ કેવી રીતે રાખશો". The programme was attended by more than 250 male prisoners and 100 female prisoners. The event was beautifully co-ordinated by Dr Kalpita Dave & Dr Hitendra Nayak.

## **Report of Dr. N. T. Shah Scientific Programme dated 12-10-23**

A CME was organized by Ahmedabad Medical Association on 'New updates on Liver, Pancreas and Biliary diseases' at

Cosmopolitan Hotel, Navrangpura, Ahmedabad on 12th October 2023. Dr Kaushal Anand of Shailya Hospital was invited as an expert speaker. The programme was co-ordinated by Dr Mukesh Khadalia and Dr Hetal Pandya. Approximately 50 participants had attended the CME. The session was quite informative and interactive.

### **Report of Organ Donation Awareness Programme with ICAI dated 12-10-23**

Organ Donation Awareness Programme was jointly organized by Ahmedabad medical Association & Ahmedabad Branch of WIRC of ICAI (Chartered Account Association) on 12th October 2023. The event was graced by the presence of Shree Dilipbhai Deshmukh, Dr Mehul Shah Hon. Secretary IMA GSB, Dr Tushar Patel President AMA, CA (Dr.) Anjali Choksi Chairperson, CA Abhinav Malaviya Secretary & CA Shivang Choksi.

### **Report of a Talk on Making fire safe hospital building dated 15-10-23**

Ahmedabad Medical Association has organized a talk on Making fire safe hospital building in collaboration with Ahmedabad Fire and Emergency Services Department, Institution of Fire Engineers India Gujarat State Chapter & Ahmedabad Hospitals and Nursing Homes Association on 15th Oct, 2023 at R. M. Fozdar Hall, AMA house. Shree Nalin Chaudhari Director – Gujarat State Fire Prevention Services Department Govt. of Gujarat, Dr Prabhat Rahangdale Former Director of Maharashtra Fire Service & Shree Jayesh Khadiya CFO Ahmedabad Fire Emergency Services Department were invited as expert speakers. Around 80 participants had attended the programme. The entire event was excellently co-ordinated by Dr Vasant Patel & Dr Purav Thakkar.

## Making Smart Investments in Land : A Doctor's Guide

### Unlocking the Potential of Real Estate for Medical Professionals

#### Introduction

As a medical professional, you have dedicated your life to caring for patients and improving their well-being. However, it's crucial to also prioritize your financial health and secure a stable future. While you might be well-versed in the medical field, venturing into the world of real estate investment can seem daunting. **Fear not!** This article aims to provide doctors with valuable investment advice in land to help you make informed decisions and build a strong financial portfolio.

#### Why Consider Land Investment?

Investing in land can offer numerous benefits for doctors looking to diversify their financial assets. Unlike other investments, land is a tangible asset that generally appreciates over time, making it a potentially lucrative long-term venture. Additionally, land investments are less susceptible to market fluctuations compared to stocks or bonds, providing a degree of stability during uncertain economic times.

#### Understanding Your Investment Goals

Before delving into the world of land investment, it's essential to define your investment goals clearly. Understanding your objectives will guide you in making the right decisions tailored to your needs.

#### Conducting Thorough Research

As doctors, you are experts in conducting comprehensive research before making medical decisions, and the same diligence applies to real estate investments. Research potential areas of interest, considering factors such as economic growth, infrastructure development, and population trends. Analyze local property markets, vacancy rates, and rental demand to gauge the investment's potential.

#### Working with a Realtor

Collaborating with a reputable realtor can provide invaluable insights, access to off-market opportunities, and a smooth buying process. Realtors can also help you navigate legalities, zoning regulations, and environmental considerations that are crucial when investing in land. As a busy medical professional, you might not have the time to actively

manage your land investment where realtor can help you on current markets.

### **Land Use and Zoning Regulations**

Ensure compliance with local zoning laws and future development plans to prevent potential setbacks in land use.

### **Environmental Considerations**

Conduct environmental due diligence to identify issues like contamination, endangered species habitats, or flood zones that could affect land value or development potential.

### **Infrastructure and Development**

One of the key factors driving land appreciation is its proximity to infrastructure and development projects. Areas experiencing growth in terms of transportation networks, hospitals, educational institutions, or commercial centers are more likely to witness a surge in land value.

### **Conclusion**

As a doctor, you've dedicated your life to healing others. Now, it's time to ensure your financial health and future stability. Land investment can be a prudent addition to your financial portfolio, providing both long-term appreciation and diversification. By conducting thorough research, collaborating with experienced realtors, and understanding the legal and environmental aspects, you can make smart investment decisions that align with your goals.

**Happy investing!**

## **Beyond the Stethoscope: Crafting a Legacy Beyond Medicine**

**By Meenal Goswamy**

As I sit across the table with my doctor friends, I can't help but notice this usual pride in their eyes when they speak about how their son or daughter is working hard to clear the tough medical exams. But this time, it was different. Last week, I met Dr Sharma, our family doctor, who had the same sparkling eyes for his daughter, Ananya. She's not a doctor, nor

does she aspire to be one. Instead, she's a passionate environmentalist, working diligently to combat climate change. Yet, the legacy of Dr. Sharma shines brightly through her, and it's not because she wears a white coat.

This is when I realised that many doctors cherish the dream of seeing their children follow in their footsteps. The medical profession, after all, is noble, challenging, and often rewarding.

But does legacy only mean a continuation of the same profession?

### **Why Should Doctor Kid Be a Doctor?**

It's a common notion across the globe that doctors' children are destined to don the white coat, carry the stethoscope, and walk the same legacy paved by their parents. And, if somebody fails to do it, they are not meeting the p's and q's of the highly noble society. However, I feel differently about it. In this modern time, legacy is not merely about mirroring professions; they are about imbibing values, ethics, and a commitment to making a difference in our community, society or this world.

Legacy is not just about the profession you choose; it's about the values you instil, the difference you make, and the lives you touch. It's about passion, commitment, and the drive to make the world a better place. These qualities are not exclusive to the medical field. They can be found in artists, engineers, teachers, and countless other professions.

### **Diverse Career Paths, Same Values**

In today's rapidly changing world, we need interconnected domains, each playing a pivotal role in maintaining the equilibrium of our existence. We need DNA engineers, scientists, and data analytics, to help us prepare for bio wars and unforeseen man-made epidemics. We also need more and more passionate heads to make this world a better place to live.

Take Ananya, for instance. While she isn't treating patients, she's treating the planet. The dedication she shows to her cause, the hours she puts into research, and the way she connects with communities are reminiscent of her father's commitment to his patients. The medium is different, but the core values remain the same. Similarly, a career in law can be a conduit for advocating healthcare policies and patients' rights, ensuring that the sanctity of human life is upheld in the labyrinth of legalities.

## Doctors are trained to diagnose, treat, and heal. **But isn't healing also about creating a better future?**

The essence remains the same, whether it's through medicine, technology, arts, or environmental conservation.

In my role as an HR consultant, I've had the privilege of witnessing the confluence of diverse talents, each bringing a unique perspective to the table. The amalgamation of varied skills and knowledge enriches the organizational culture and fosters innovation. It's this diversity that propels us forward, allowing us to explore uncharted territories and find novel solutions to age-old problems.

### **Career Advice for the Future**

As someone who works closely with diverse professionals, I've seen the magic that happens when individuals are allowed to follow their passion. My advice to all the doctors reading this is simple: support your child's dreams, even if they don't involve medicine. Recognize the values they're upholding and the difference they're striving to make.

Stories of individuals making a mark in various fields are aplenty. The boundaries are blurring from tech innovators addressing healthcare challenges to artists raising awareness about mental health. These stories need to be shared, celebrated and used as inspiration for the next generation.

### **Conclusion**

To all the doctors reading this, your legacy is not just about the title or the profession. It's about the ethos of service, dedication, and commitment to a cause. Whether your child chooses to be a doctor, an artist, an engineer, or any other profession, what truly matters is the impact they make and the values they carry forward.

So, the next time you sit across the table from your child, listen to their dreams and aspirations. You might realize that the legacy you've built is already shining brightly through them in ways you hadn't even imagined.

## THE GIFT OF LIFE- ONE BLOOD DONATION SAVES 3

**Dr. Jhalak Patel<sup>1</sup>, Dr. Vishvas Amin<sup>2</sup>**

**Indian Red Cross Society, Ahmedabad District Branch**

1 - Deputy Director-Medical, Transfusion Medicine Specialist.

2 - General Secretary, Pathologist.

How fascinating it seems that one blood donation saves 3 lives. Often blood donors visiting the blood donation camp or blood centre are horrified looking at 3 or 4 blood bags attached to the needle and ask “HOW MANY BAGS ARE YOU GOING TO FILL?”

### ❖ **Brief about how one blood donation saves 3 lives :**

Before the advent of componentization therapy, the blood was collected in glass bottles and was being issued for transfusion. Later, switching from glass bottles to blood bags took place.

Moreover, blood bags triple/quadruple system (interconnected 2-3 blood bags) were introduced which brought a revolution in blood transfusion services. It led to component therapy approach and rational use of blood and blood components were made by which one blood donation can save 3 lives.

The whole blood which is a mixture of cells, colloids and crystalloids can be separated into different blood components namely packed red blood cell (PRBC) concentrate, platelet concentrate (PC), fresh frozen plasma (FFP) and cryoprecipitate.

As different blood components have different relative density, sediment rate and size they can be separated when centrifugal force is applied.

The blood components prepared from one unit of whole blood are:

1. Packed red blood cells
2. Fresh frozen plasma or Cryo poor plasma
3. Platelet concentrate
4. Cryoprecipitate

Each blood component is used for a different indication; thus, the component separation has maximized the utility of one whole blood unit.

Different components need different storage conditions and temperature requirements for therapeutic efficacy.

Blood products are modified as Leucoreduced/leucodepleted products, irradiated products, volume reduced products, saline washed products, and

pathogen inactivated products as per the indication for use in special cases.

New researches in red cell cultures and blood substitutes herald new era in blood banking.

### ➤ **Component Collection by Apheresis Procedure:**

Apheresis is a procedure where required single or more than one component is collected and the rest of blood components are returned to the donor.

The working principle of apheresis equipment is by centrifugation (different specific gravity). In this method, fixed quantity of blood is collected in a bolus called as Extracorporeal volume (ECV) and the required component (e.g. Platelets) is separated and collected in the collection bag and the other components (e.g. red blood cells, leucocytes and plasma) are returned back to the donor.

The components that can be collected by Apheresis in India are:

1. Platelets
2. Plasma (only in case of COVID-19 Convalescent Plasma)
3. Granulocytes
4. Peripheral stem cells

## How to refer a patient for Kidney transplant?: A Physician's guide

### Introduction

Chronic kidney disease (CKD) is associated with high rates of morbidity and increasing rates of mortality worldwide.

Kidney transplant (KT) is the preferred form of kidney replacement therapy (KRT) for suitable patients as data shows that it improves the survival and quality of life compared to dialysis patients; that too at lower cost in the longer term. Demand for transplantable kidneys exceeds supply and thus candidacy for deceased donor transplantation needs careful evaluation.

Initiation of the transplant evaluation process depends on the patient's subjective well-being, underlying kidney disease and rate of glomerular filtration rate (GFR) loss; number and severity of comorbid conditions; and the anticipated need for specialized testing and immunological evaluation. This article addresses physicians dealing with CKD patients about knowledge of candidacy for transplant.

### When to refer?

- All CKD patients not on dialysis should be informed, educated and considered for kidney transplant evaluation at **CKD stage G4 and G5 or at least 6 to 12 months before anticipated dialysis initiation** to facilitate identification/work-up of living donors and plan for possible preemptive transplantation.
- Patients with advanced CKD who are expected to reach the stage of needing dialysis have the right to be informed of all available treatment options, including transplantation.
- Patients already on regular dialysis when medically stable and kidney failure deemed irreversible.

### When not to refer?

CKD patients with following conditions should be precluded from kidney transplant evaluation.

- Plasma cell dyscrasias, not adequately treated
- Progressive central neurodegenerative disease
- Severe irreversible obstructive or restrictive lung disease
- Severe uncorrectable and symptomatic cardiac disease that is deemed by a cardiologist
- Decompensated Cirrhosis of liver (may need combined liver-kidney transplant)

#### **Types of transplant donors :**

- Living related donors: blood relatives of the recipient up to the 4th degree of consanguinity, spouses
- Living non-related donors: like friends.
- Deceased (cadaver) donors: from victims of brain death.
- In India, registration for deceased grafts can only be done after **3 months of regular dialysis treatment.**

#### **Pre-emptive transplant :**

- Kidney transplantation may be done before the initiation of maintenance dialysis in CKD Stage 5 patient is called a pre-emptive KT.
- When a live donor is available or where pre-emptive deceased donor transplantation is possible, cases should proceed when the eGFR is  $<10 \text{ ml/min/1.73 m}^2$  (10 to  $15 \text{ ml/min/1.73 m}^2$  in pediatrics).
- The advantages of preemptive transplant are distinct due to avoidance of complications and cost dialysis
- It is also associated for better graft survival than patients transplanted after initiating the dialysis.

## Bhagavad Gita – Its relevance in today’s world. (Part 2: Chapter 13-18)

Dear all, let us discuss the last 6 chapters of this classical scripture. In the last article we covered summary of chapter 7-12. In this article we are going to cover chapter 13-18.

**Table 1 : Chapter wise summary of Gita and its application in day-to-day life (Cont.)**

| Chapter Name   | Practical applications in day-to-day life  |
|--|--|
| <b>Chapter 13 : “KhetraKhetrajñaVibhāga Yoga</b> <ul style="list-style-type: none"> <li>Arjuna wants to know about prakriti (nature), purusa (the enjoyer), ksetra (the field), ksetra-jna (the knower of the field), jnana (knowledge), and gnaya (the object of knowledge).</li> <li>Krishna explains that the ksetra is the conditioned soul’s field of activity the body. Within it reside both the living entity and the Supreme Lord, who are called ksetra-jna, the knowers of the field.</li> <li>Jnana, knowledge, means understanding of the body and its knowers. Knowledge involves qualities such as humility, nonviolence, tolerance, cleanliness, self-control, absence of false ego, and even – mindedness amid pleasant and unpleasant events.</li> </ul> | <b>Chapter 13 : Detach from maya and attach to Divine.</b> <ul style="list-style-type: none"> <li>The two purusas, or enjoyers, are the living entity and the Super soul.</li> <li>A person who can see that the individual soul and the Super soul remain unchanged throughout various types of material bodies they successfully inhabit and is said to possess the vision of eternity.</li> <li>By understanding the difference between the body and the knower of the body, and by understanding the process of liberation from material bondage, one reaches the supreme goal.</li> </ul> |
| <b>Chapter 14 : GuṇaTrayaVibhāga Yoga</b> <ul style="list-style-type: none"> <li>There are 3 Gunas to mind, ego &amp; food. Sattavic ego is, I am everything &amp; everybody.</li> <li>Tamasic ego is knowing that you are only this body,&amp; Rajasic ego is having a limited mindset &amp; falling into craving &amp; aversion.</li> </ul>  | <b>Chapter 14 : Live a lifestyle that matches your vision.</b> <ul style="list-style-type: none"> <li>A person influenced by the mode of passion is plagued by unlimited desires for boundless material enjoyment, especially sex pleasure. To satisfy those desires, he is always forced to engage in hard work that binds him to</li> </ul>  |

|  |   |
|--|---|
| <ul style="list-style-type: none"> <li>• We all have the 3 gunas, but we differ because of predominance of one guna over the other two.</li> <li>• The Self (Atma) is beyond gunas, It is the body which has gunas, doership, etc.</li> <li>• To transcend gunas we must identify as Self not as body.</li> </ul>  | <p>sinful reactions, resulting in misery. A person in the mode of passion is never satisfied with the position he has already acquired. After death, he again takes birth on earth among persons engaged in fruitive activities.</p> <ul style="list-style-type: none"> <li>• The mode of ignorance means delusion. It fosters madness, indolence, laziness, and foolishness. If one dies in the mode of ignorance, he has to take birth in the animal kingdom or the hellish worlds.</li> <li>• A person who transcends the three modes is steady in his behavior, aloof from the temporary material body, and equally disposed towards friends and enemies. Such transcendental qualities can be achieved by full engagement in devotional service.</li> </ul>                          |
| <p><b>Chapter 15 : Puruṣottama Yoga</b></p> <ul style="list-style-type: none"> <li>• The “tree” of this material world is but a reflection of the real “tree”, the spiritual world.</li> <li>• Just as a tree’s reflection is situated on water, the material reflection of the spiritual world is situated on desire, and no one knows where it begins or ends.</li> <li>• This reflected tree is nourished by the three modes of material nature. Its leaves are the Vedic hymns, and its twigs are the objects of the senses. One who wants to disentangle himself from this tree must cut it down with the weapon of detachment and seek shelter of the Supreme Lord.</li> </ul> | <p><b>Chapter 15 - Give priority to Divinity.</b></p> <ul style="list-style-type: none"> <li>• Krishna explains how we are caught in the mysterious nature of cycle of death &amp; rebirth in this material world.</li> <li>• He compares life to the huge, many branched, well rooted Peepal tree which is not easily destructible.</li> <li>• The first step is to develop detachment, freedom from reaction towards pairs of opposites, pride, sorrow etc &amp; to be free from worldly pursuits.</li> <li>• Having withdrawn mind from worldly desires, one should seek &amp; give priority to Divinity (Brahman).</li> <li>• Everyone in this world is fallible, but in the spiritual world everyone is infallible. And beyond all others is the Supreme Person, Krishna.</li> </ul> |
| <p><b>Chapter 16 : Daivāsura Sampad Vibhāga Yoga</b></p> <ul style="list-style-type: none"> <li>• Two classes of created beings, the</li> </ul>  | <p><b>Chapter 16 : Being good is a reward.</b></p> <ul style="list-style-type: none"> <li>• In this Lord Krishna explains which types of human traits are divine and</li> </ul>   |

divine and the demoniac, are endowed with different qualities.

- Godly men like Arjuna possess the godly qualities: charity, self-control, gentleness, modesty, forgiveness, cleanliness, austerity, simplicity, non-violence, truthfulness, tranquility, fearlessness, freedom from anger, cultivation of spiritual knowledge, aversion to fault-finding, compassion for all living beings, freedom from covetousness, and steady determination.
- Demoniac qualities such as pride, anger, envy, harshness, arrogance, ignorance, Impudence, uncleanness, and improper behavior bind people in a network of illusion that makes them take birth again and again in demoniac species of life. Unable to approach Krishna, the demoniac gradually sink down to hell.

which are not.

- Two kinds of action – regulated and unregulated—yield different results.
- A person who discards scriptural injunctions attains neither perfection, nor happiness, nor the supreme destination.
- People regulated by scripture understand what duty is and what is not. They gradually attain the supreme destination by performing acts conducive to self-realization.

#### **Chapter 17 : ŚhraddhāTrayaVibhāga Yoga**

- Arjuna asks. “what mode of nature governs those who do not follow the principles of scripture but worship according to their own imagination?”
- In reply, Krishna analyzes the different kinds of faith, food, charity, austerity, sacrifice, and penance that mark the different modes of material nature.
- The three words “om tat sat” are symbolic representations of the Supreme Absolute Truth.
- Om indicates the Supreme, tat is used for getting free from material entanglement, and sat indicates that the Absolute Truth is the objective of devotional service.
- Any sacrifice, charity, or penance performed without faith in the Supreme is called asat, impermanent.

#### **Chapter 17 : Divisions of faith (Choosing right over the pleasant is a sign of power)**

- This chapter explains the power of faith.
- Krishna explains the power of choosing right over the pleasant by acquiring knowledge and living life as a Satvic.
- He discusses significance of mantra “Om tat sat”. Meaning “The supreme Absolute Truth” or “All that is.”. ‘Sat’ has many meanings like truth, existence, goodness, good action & steadfastness.
- In essence while choosing right over pleasant the utterance of this mantra will sanctify scriptural actions and make one Satvic.

**Chapter 18 : MokṣhaSanyāsa Yoga**

- Arjuna asks Krishna about the purpose of tyaga (renunciation) and sannyasa (the renounced order of life).
- One attains perfection by doing one's own work, not another's, as prescribed duties are never affected by sinful reactions. Thus one should work as a matter of duty, without attachment or expectation of result. One should never give up one's duty.
- The highest platform of self-realization is pure devotional service to Krishna. Accordingly, Krishna advises Arjuna to always depend on Him, work under His protection, and be conscious of Him. If Arjuna refuses to fight for Krishna, he will still be dragged into warfare as it is his nature as a ksatriya to fight. Nonetheless, he is free to decide what he wants to do.
- By Krishna's grace, Arjuna's illusion and doubt vanish, and he chooses to fight according to Krishna's directions.

**Chapter 18 : Conclusion: The Perfection of Renunciation**

- The Bhagavad Gita teaches us the nature of the true self. Also, it teaches about spirituality.
- Krishna teaches us the ways of life or the art of living through the Bhagavad Gita. His teaching related to love, action, food, meditation, and deeds are incredible.
- Krishna explains, renunciation does not mean abandoning the duties of every day life & becoming a recluse to live a life of an Ascetic, neither does it mean living with indifference to the world & its affairs.
- It means living as a Karma yogi.
- No man is free from action & action cannot be given up. But actions performed should promote welfare of all. Your good karmas will unite you with your true inner self. Let go all that holds you back & move forward.

# MIRACLES OF CARE

## FROM 255.5 KG TO 149 KG,

### A PHENOMENAL JOURNEY OF WEIGHT LOSS AFTER LIFE-CHANGING BARIATRIC SURGERY!

A **39-year old morbidly obese patient (weight 255 kg)** came to us with complaints of **breathlessness during walking, hypertension & disturbed sleep pattern** since several years. His obesity had a severely ill effect on his overall life quality & was gradually becoming a significant reason for his depression. With a habit of drinking approx. 8L of Soft drinks per day, he had a poor quality of life & was on regular medications. Upon admission, his **weight was 255.5 kg & BMI was 91.5 Kg/m<sup>2</sup>**. His USG abdomen showed moderate to gross hepatomegaly with prominent fatty changes along with significant Gall bladder calculi.

He was **advised to undergo a Laparoscopic Gastric bypass by Dr Manish Khaitan**, Senior Bariatric Surgeon. Laparoscopic gastric bypass (GBP) surgery is a procedure that involves the creation of a gastric pouch surgically and performed to yield significant and long-lasting weight loss in patients who are severely obese.

Regular check-ups, dietary changes & lifestyle modifications made up a significant part of the patient's post-operative journey. Follow-up visits at regular intervals with constant medical & psychological support were instrumental in this patient's weight loss journey. One year after undergoing life-changing bariatric surgery, the **patient currently weights 149 kg & aims to lose even more weight.**

The EVA hospital family is extremely delighted to share that our “Novel Technique of Complete Laparoscopic Approach of Management of Bowel Deep Infiltrating Endometriosis by Colorectal Resection” delivering the enormous benefits of Minimal Invasive Surgery to the patient, has been published in a renowned Pubmed Indexed international journal, the details of which are shared alongwith.

### **Bowel Endometriosis management by colo-rectal resection: Laparoscopic surgical technique & outcome**

**Background and Objectives:** Bowel Deep Infiltrating Endometriosis (DIE) management by colo-rectal resection is a complex procedure. The purpose of the present study is to delineate a meticulous approach to the assessment of the patient, step-wise surgical technique, pre, and post-operative care, and its short-term and long-term outcomes.

**Methods:** This is a single centre retrospective study done on patients of bowel DIE managed by colo-rectal resection between January 2019 to June 2021.

**Results:** There was a significant improvement in the symptomatology of patients post-surgery. Our surgical technique is feasible with acceptable short-term and long-term outcomes.

**Conclusion:** Bowel DIE management can be proficiently executed with proper diagnostic approach, appropriate surgical expertise with exhaustive pelvic anatomy knowledge especially concerning autonomic nerve plexus.

## Dr. Nirav Shah

MD, DM (Cardiology)

### INTERESTING CASE

**\*Bailout Strategy : How IVUS helped in managing LCX ostial Thrombus ?**

#### Left Main PCI Coronary Imaging Thrombus management

A 32 year old young patient presented with NSTEMI. His angiography revealed total occlusion of proximal LCX.

We deployed DES at LCX but soon after the deployment we saw filling defect at origin of LCX at point of confluence involving LMCA. Patient developed severe chest pain and diaphoresis.

We did intracoronary Imaging with IVUS which revealed significant intramural hematoma with restricted distal flow.

So we did Left main to LCX cross over stenting with good end result and patient's symptoms completely resolved.

He was being given all the secondary prevention medicines and discharged uneventfully.
